

### SC 1230

#### Light controller

Ideal to be used in combination with one or more RL 3400 relay packs; it comes with 12 channels to control voltages from 0 to 10 V. It is possible to operate on each channel and adjust the light intensity, or press the related button and turn on each single channel at full power.

Thanks to the chase function, adjustable in speed, the lights can be switched on in sequence following the musical rhythm coming from an external line signal. A led indicates for each channel the operating status. The signals, divided into 3 blocks, can be managed separately by means of specific sliders.

CONNECTION CABLES NOT INCLUDED.

Channels	12
19" rack space	1U
Total channels	12
DMX compatible	No
Weight	1,50
