CONV 3DA

Digital-analog audio converter with headphone socket

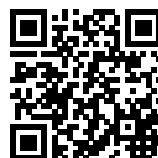

Practical and compact, this converter allows to convert the audio signal from digital to analog. The digital signal can be received by an optical fiber cable with toslink connector or by a coaxial RCA. The output is available both via standard RCA and via 3,5 mm jack. Useful in many situations, such as to pick up audio signal from TV and to listen to it in your headphone or amplify it externally.

The packaging includes a small 5V - 1A power adaptor, a 1m optical cable and a USB power cable to connect it directly to the TV without using the power adaptor.

Warning: activate the audio PCM output if you don't hear any audio signal.
