SET 175

UHF - USB wireless microphone

Practical and ingenious, this wireless microphone is one of the most versatile and performant devices for audio transmission.

It is composed of a handheld microphone operating with 2 AA batteries and a receiver powered directly by a common USB socket. The receiver can be connected to the microphone port through a small cable and it is ready to operate in a few seconds. In case of interferences it will be enough to press a button on the receiver, which will automatically change channel and set it on the microphone via an infrared signal. It can be used on amplified speakers, mixers or any device with a mic socket. The receiver is endowed with its own USB socket to connect sticks to play MP3 audio.

Carrying case	No
Frequency response	20Hz - 20KHz
Handheld microphone's weight	120 gr
Receiver dimensions	70 x 15 x 10 mm
Operating range	25 m
Display	Yes
Autonomy	4 hours
Frequency type	UHF
Diversity system	No
Color	black
Weight	0,18
Product dimensions	210 x 55 x 55 mm
Power supply	Through USB
