TIGER 15A

410W amplified speaker

The large metal grill hides a powerful 15" woofer and a 2" tweeter; the speaker produces a maximum power of 410W with the possibility of amplifying a passive box of the same type (TIGER 15). The rear panel comes with connectors for a microphone signal and a line signal and with the output socket for a further amplified speaker, besides the passive one.

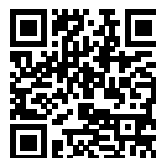

It is able to play Mp3 songs via USB sticks or SD cards and to receive music from smartphones and tablets, thanks to the built-in bluetooth receiver. Through the integrated TWS function you can play music from your smartphone on 2 active speakers of the same series simultaneously via bluetooth.

The 5-band equalizer allows you to adjust correctly every type of sound.

It has dual infrared sensor for the remote control.
