GT 86R

Cuffia gaming USB con led rosso

With large insulating earcups, it's the ideal headset for gaming, chatting and conferencing.

The soft materials with which the earcups and headband are made make the headphone comfortable and usable for hours. It has a single cable with 2 connectors, USB and 3.5mm 4PIN JACK. The USB connector is used exclusively for powering the LEDs, while the 3.5mm 4PIN jack is used for transmitting the incoming and outgoing audio signal. Excellent acoustic performance thanks to the large speakers that faithfully reproduce any type of audio.
