il catalogo aggiornato

Professional machine able to create thousands of bubbles in a few seconds. You just have to add the specific liquid in the tank and switch on the appliance. The double fan and the double wheel will instantly generate a myriad of soap bubbles blown into the air up to 8 m away. Excellent for scenic effects of great impact. The upper handle facilitates its transport. It can be activated from a distance thanks to a small infrared remote control.

| Mounting bracket | Yes |
| :--- | :--- |
| absorption | 70 W |
| Tank capacity | 3 It |
| Remote control | Included |
| Color | black |
| Weight | 8,2 |
| Product dimensions | $380 \times 460 \times 440 \mathrm{~mm}$ |
| Power supply | 220 V |
| Notes | Fluid consumption: $4,8 \mathrm{l} / \mathrm{h}$ with continuous operation |
