

INFRA TX

IR repeater and splitter

Thanks to this device you can control, from a single location, up to 8 devices positioned in another room. It consists of a control unit to which the IR receiver can be connected (the control unit allows the connection of 2 other optional receivers) and 4 double IR emitters which will be positioned on 8 appliances to be controlled (the control unit allows the connection of 2 other optional emitters for a total of 12 luminaires). There are optional 4-sensor emitters that allow the control unit to transmit the signal to a maximum of 24 devices.

Suitable for both home use and store TV display.
