Wireless motorized phone holder

Motorized wireless car charger for phones endowed with QI charging system. It is compatible both with Android and with Apple systems. It comes with a motorized infrared mechanism that tightens the mobile phone when inserted and releases it automatically with the push of a button. It can be used for smartphones with screens up to 6,5". The charging system is capable of delivering power up to 10W for fast charging. It can be applied to the air vents with a simple gesture and offers excellent stability. Some specific protections avoid overheating and overloads of the phone.
