MASTER 20

UHF headset wireless microphone with rechargeable battery

Ideal for teachers, lecturers and whoever needs a practical and universal wireless microphone. The receiver, powered by an internal battery, can be plugged into a standard microphone socket and it is immediately ready for use. It is compatible with any powered speaker, mixer, amplifier or computer endowed with a microphone socket.

It comes with a 3,5mm connector, but a 6,3mm adapter is also supplied. Both the headset microphone and the small receiver can be recharged simultaneously by a USB cable included in the packaging, with a charging time of around 2 hours. The average operating autonomy is 4 hours. Volume can be adjusted directly from the microphone and, in case of interferences, it is possible to change frequency just by pressing a button (10 channels available).

Small, lightweight and easy to carry, it will become your inseparable companion. The package includes also 10 replacement sponges.
