Bluetooth receiver with earphones - black

Particular combination including a rechargeable bluetooth receiver and excellent quality earphones. The bluetooth receiver can be used also with other earphones or to connect an amplified speaker, to car radios or to any stereo system (optional cable is required). The receiver can be recharged thanks to the supplied microUSB cable and is endowed with volume control and keys to answer incoming calls.

Unique in its kind, it features a microSD card reader, to play music without necessity to connect it to a phone.
