Bluetooth earphones

Rechargeable stereo earphones with more than 7 hours of autonomy thanks to the powerful battery. It operates via 5.0 bluetooth standard offering a quick connection and low latency. Lightweight and comfortable to wear, they are balanced and endowed with magnetic system to attach them when not used. Thanks to the in-ear type pads they can fit in the listener's ear, isolating it from external noises and enhancing at the same time bass tones with high performance and audio playback. Black in colour, they feature controls for track selection, volume adjustment and pause key. They also include a microphone to answer incoming calls and to interact with a vocal assistant. They can be recharged via the included USB cable.
