In-wall touch amplifier capable of supporting up to 4 x 30W speakers with 8 Ohm impedance. It comes with a colour 3.5" capacitive screen to handle the MP3 tracks that are played through the USB/SD port. It is equipped with FM radio and bluetooth receiver (name and password cannot be changed). Thanks to the touch screen the user can change settings just with a finger, while the remote control allows operation from a distance. It is possible to schedule daily music starting time and it features also clock and digital controls to adjust bass and treble. Wall box included.

Pwd for system settings: 0000

|                    |                |
