Just one remote control for dozens of brands and models. Press and hold for 5 seconds the key with the desired TV brand: a led will flash indicating successful setting (25 available brands). If your TV's brand is not shown on any of the 25 keys, you can select it by pressing the key "other brands" followed by a code indicated on the user manual. It can replace the original remote control of 99,9% of the TVs on the market and it features all the necessary keys for your TV's functions. Thanks to its soft rubber keys and its ergonomic antigrip body it is particularly comfortable to use.

Colour: white
