BLT T1C

BT transmitter with player and converter

Latest generation transmitter, featuring a 5.0 bluetooth channel to transmit audio to a headset, a powered speaker or a soundbar.

Thanks to its many functions it is extremely versatile. It offers the possibility to transmit audio coming from an analog (3.5mm / coaxial) or digital (toslink) source. It is therefore ideal for transmitting the audio of a TV by getting the signal directly from the optical socket (cable included).

It is even equipped with a micro SD port to play and transmit MP3 files contained in the card.

It can be powered directly from a USB socket.
