Audio video cable with ethernet function. It complies with 2.0 standards which allows it to manage signals at a maximum speed of 18Gbits/s and therefore reproduce any type of audio/video file with a maximum resolution of 4096x2160 pixels.

4K signals can be played back at 60Hz

It is compatible with some of the top specifications required by the latest generation devices: ARC, Dolby and HDR are just a few.

The quality of the cable is excellent as well as the gold-plated connectors for maximum performance.
