Nice rechargeable speaker with a spherical shape and attention to detail that characterize its quality. In order not to spoil its aesthetics, the controls have been placed in the lower part. The upper part incorporates a woofer and features a practical rubberised strap for easy carrying. It is upholstered in colored fabric. It incorporates a bluetooth 5.0 receiver but can also play MP3 songs directly from USB sticks. It even has a standard 3.5mm socket. It offers FM radio and hands-free function. Thanks to the built-in microphone, it allows you to answer incoming calls. The internal battery recharges in just 3 hours via the included microUSB cable and offers an autonomy of over 4 hours. It is available in 5 color versions: blue, green, black, gray and red.
