### VOICE 2M

#### Dual karaoke wireless microphone

Extraordinary kit consisting of 2 microphones and a small receiver. All powered by a rechargeable lithium battery via USB socket (cables included).

You just have to connect the receiver to the microphone socket of a mixer, an amplified speaker, an hi-fi system, etc. to be ready to play your own voice from a distance. The microphone connects instantly and, in case of interference, you can switch to another channel just by pressing a button. From the microphone it is also possible to adjust the volume, the level of the effect and view both the frequency and the battery charge level thanks to a clear display. But that's not all: both microphones can be paired with two smartphones via bluetooth to transmit, in addition to the voice, any kind of audio. Karaoke has never been easier. Windscreen sponges and microphone anti-slip rings are supplied as well.

Mic A frequency: 679,10 - 694,10 Mhz

Mic B frequency: 663,10 - 678,10 Mhz

Autonomy	More than 3 hours
Display	Yes
Diversity system	No
Frequency type	UHF
Operating range	25m
Receiver dimensions	110 x 35 x 22 mm
