Stereo amplifier capable of amplifying 2 front speakers, 2 rear speakers and a center speaker. It has dual RCA outputs for subwoofers and dual 6.3mm inputs for as many optional microphones. RCA inputs are provided for external signals (AUX and DVD) and a front 3.5mm socket for an external MP3 player. On the front there is a USB port and an SD card for reading Mp3 songs. A bluetooth module allows audio streaming from phones or tablets while the front controls allow volume and tone adjustment and the choice of sound source. The large display shows the main information including the name of the song being played. Remote control and FM radio module complete this extraordinary amplifier that cannot be missing in modern homes.
